

M-Sweeper 900

TECHNICAL DATA:

Dimensions	2100x894x670mm
Work width with two side brushes	1120mm
Work width with single side brush	910mm
Theoretical sweep efficiency	6720 m.kw/h
Operating speed	3 - 5 km
Waste container capacity	35 litrów
Weight	285kg

ADVANTAGES:

- the ability to operate with any kind of forklift with no extra connection
- fully mechanical device
- present dust extractor and filtering systems
- to empty the container drive over the skip and loosen the lever
- adjustable roller brush pressure
- adjustable side brush level
- convenient access to all mechanical appliances
